

SATYAM DUBEY

Senior Frontend Developer · 7+ Years Experience

Noida, India | +91 8586864294 | satyamdubey9450@gmail.com | [linkedin.com/in/satyam8586864294](https://www.linkedin.com/in/satyam8586864294)

Portfolio: <https://portfolio-satyam-dubey.vercel.app/>

PROFESSIONAL SUMMARY

Senior Frontend Developer with 7+ years of experience building scalable, high-performance web applications. Strong expertise across the full stack — React.js, Next.js, TypeScript, Node.js, Express.js/NestJS — with solid understanding of system design, cloud/DevOps practices, and databases (MySQL, MongoDB, Redis). Proven track record of improving application performance by 30–40% and delivering production systems for enterprise and high-traffic platforms.

CORE SKILLS

Frontend: HTML5, CSS3, Tailwind CSS, SCSS, JavaScript (ES6+), TypeScript, React.js, Next.js, Redux Toolkit / RTK Query, Responsive Design, Performance Optimization, Accessibility, Testing (Jest, React Testing Library)

Backend: Node.js, Express.js / NestJS, REST API, Authentication & Authorization, JWT / OAuth, Middleware, Error Handling, WebSockets

Databases: MySQL, MongoDB, SQL Joins, Indexing, Transactions, Query Optimization, Database Design, Redis / Caching

System Design: API Architecture, Microservices Basics, Load Balancing, Message Queues, Scalability, Database Scaling, Security, Rate Limiting

DevOps & Tools: Docker, Git / GitHub, CI/CD, Azure / AWS, Linux Basics, Nginx, Environment & Config Management, Monitoring & Logging, Cross-browser Compatibility, CMS, PDF Handling, Webpack, NPM

Shopify Development: Shopify Liquid (Themes, Sections, Snippets, Metafields, JSON Templates, Online Store 2.0), Shopify Admin & Storefront GraphQL API, Hydrogen + Remix/React Router (Headless Commerce, Custom Storefronts), Shopify App Development (Shopify CLI, App Bridge, Polaris, Webhooks, OAuth), Shopify Functions (Custom Discounts, Shipping/Payment & Checkout Logic), Checkout Extensions, Shopify Plus (Enterprise, B2B, Advanced Checkout, Automation)

E-commerce Fundamentals: SEO, Core Web Vitals, Conversion Optimization, GA4 / GTM Analytics, Payment & Third-Party Integrations

PROFESSIONAL EXPERIENCE

Senior Frontend Developer — Neosoft Technologies Pvt. Ltd., Noida | Feb 2024 – Present

- Built responsive, accessible, and highly interactive UIs using React.js and Next.js, improving application performance by 30%+ through Core Web Vitals optimization (SSR, SSG, image optimization, dynamic imports, and caching).
- Integrated front-end components with internal and third-party services via RESTful APIs and GraphQL, implementing efficient client-side state management with Context API, Redux Toolkit, Zustand, and React Query.
- Built a reusable, highly configurable component library using advanced React patterns (compound components, render props, slots) with Storybook, Radix UI, and Tailwind UI to ensure UI consistency across brands.
- Developed and optimized headless e-commerce storefronts using React, Next.js, and Shopify Hydrogen, connecting securely to Shopify commerce data via the Storefront API (GraphQL) to handle cart/checkout workflows, product catalogs, collections, customer accounts, and metafields.
- Implemented OAuth/OIDC-based identity provider integrations, including with Shopify, and applied modern web security practices (Next-Auth/Auth.js, JWT, CORS).

- Wrote modular, reusable, and well-documented code with unit and integration tests (Jest, React Testing Library, Cypress).
- Deployed and managed applications on GCP Cloud Run with CI/CD pipelines, including deployments to Shopify Oxygen; integrated headless CMS platforms (Contentful, Strapi, Sanity), SQL/NoSQL databases, and Prisma ORM within Nx/Turborepo monorepos.
- Partnered with UI/UX designers, backend engineers, and product managers to translate Figma wireframes and technical requirements into functional code.

Senior Frontend Developer — Wenidi Technology Pvt. Ltd., Noida | Apr 2023 – Jan 2024

- Developed responsive applications using React.js, Next.js & Vue.js.
- Enhanced user experience and UI performance across devices.
- Implemented efficient state management solutions (Redux / Context API).
- Delivered scalable and maintainable frontend architecture.

Senior Frontend Developer — RedDoorz, Remote / On-site | Feb 2021 – Apr 2023

- Built high-traffic hotel booking platform UI serving a large user base.
- Increased user engagement through UI/UX optimization.
- Translated business requirements into scalable frontend solutions.
- Delivered production-ready React applications.

UI Developer — GingerWebs Pvt. Ltd., Noida | Jan 2017 – Jan 2021

- Developed responsive web pages using HTML, CSS, and JavaScript.
- Designed admit cards and PDF-based solutions for clients.
- Improved usability and ensured cross-browser compatibility.
- Debugged and optimized client websites for performance.

EDUCATION

- BCA (Information Technology)
- Diploma in IT
- 12th (PCM)

ACHIEVEMENTS

- Improved application performance by 30–40% across multiple production systems.
- Delivered multiple high-traffic production applications for banking and travel domains.
- Strong expertise in UI/UX, scalable architecture, and full-stack delivery.

AWARDS

- Outstanding Performer — GingerWebs Pvt. Ltd., 2020

KEY PROJECTS

- **SBI Card Project** — Developed reusable component architecture, integrated APIs, optimized performance, and enhanced application efficiency and UX.
- **Axis Edge Project** — <https://traveledge.axis.bank.in/> — Built scalable frontend components, implemented API integrations, and improved load time and UI responsiveness.
- **Vernost iCuracao Travel Project** — <https://travel.icuracao.com/> — Developed responsive React.js / Next.js modules, ensured seamless cross-device experience, and integrated REST APIs.
- **BCG UDAAN Project (Punjab National Bank)** — <https://udaan.pnb.bank.in/> — Worked on a digital banking initiative with BCG, focused on performance optimization and UI consistency, and built reusable React components.

- **RedDoorz Platform** — <https://www.reddoorz.com/> — Developed a high-traffic booking platform, improved UI/UX and performance, and built scalable frontend architecture.
- **ThinkExam** — <https://www.thinkexam.com/> — Developed an online exam platform UI, created responsive and user-friendly interfaces, and integrated APIs with optimized performance.

ADDITIONAL INFORMATION

- Strong problem-solving and debugging skills.
- Experience working in Agile environments.
- Good communication and team collaboration.
